ACCUMULATING/ UNSCRAMBLING TABLES

All-Fill's diverse product line includes a versatile range of rugged, adaptable accumulating tables for use with filling, checkweighing, bagging, labeling or other packaging lines equipment. Tables come complete with durable steel housing, adjustable guide rail assemblies, rotating stainless steel platform, and internal, adjustable speed motors to precisely match adjacent equipment, and controls ready for installation into new or existing production lines.

Accumulator configurations are positioned with discharge conveyors to accept and arrange containers after filling and weighing. The unscrambler configuration supplies and orients containers towards infeed devices and can include optional diverter arms and/or infeed tables for unassisted and trouble-free container movement.

SPECIFICATION SUMMARY:

Construction:	Heavy duty stainless steel and aluminum
Table Sizes:	36", 45", 48" & 60"
Features:	Comes complete with motor, controller, guide rails, and diverter assemblies, stainless steel rotating platform
Machine Dimensions:	Adjustable to conveyor line height and configuration
Controls:	Electronic controls for direction rotation, variable speed and production rate changes
Electrical Requirements:	110 volt, Single Phase
Options:	Exterior finish, infeed and discharge tables, additional diverters and guide rails.

RUGGED, DURABLE & DEPENDABLE:

Both configurations feature adjustable speed, direct drive rotation of table platforms for easy matching and variation of production equipment speed. Integral electronic motor controller provides easy, "dial-in" speed selection without time consuming belt or gearing changes.

WORLD-CLASS SERVICE & SUPPORT:

We understand downtime and its effect on your bottom line. Packaging machinery is only as strong as its service and support system. If you run into challenges, All-Fill's Service team consists of 15 full time service employees with over 150 years of combined experience in the packaging industry. Our team can train, install, and troubleshoot any All-Fill machinery. We service domestically and in our international territories: Canada, Central and South America, India, China and Australia. Contact our Service team at Service@all-fill.com.

PARTS SUPPORT:

All-Fill machines are designed using the most innovative controls and the highest quality parts and components. All-Fill has an unmatched ability to identify and resolve issues that may arise with your machine. Our parts department provides quality support in a timely manner to reduce your downtime and stocks most parts for quick delivery. From mechanical assemblies, electronic components, tooling, machine accessories and software, we have the parts you need. Contact our Parts Department at AFI-parts@all-fill.com.

INTERNATIONAL INQUIRIES:

All-Fill's packaging machinery is available worldwide for almost any product and industry. Our more than 50 years of engineering expertise combined with our industry leading field support makes us a leader in the industry. We design, manufacture, install and service machinery with maximum accuracy and reliability. Our global presence means uncompromising service and support, no matter what or where your needs are. Reach out today to discuss your project with our international sales team. Contact us at info@all-fill.com.
